Step (4)

Go to your word document and make sure that the ‘BUiD Harvard Referencing Style (BHRS) is your default referencing style.

The generated references for Books, Journal articles, webpages, a chapter in edited work match BUiD Referencing style. However, the generated references for conference paper,
newspaper article, dissertation/thesis and report need to be modified/edited, as they do not match BUiD referencing style. You also need to review the capitalization of any generated references and make sure that they match BUiD referencing Guide (attached to this email)
